DETAILED ACTION

This action is in response to applicant's amendment/arguments filed on 4/12/2007. **This action is made FINAL.**

Response to Arguments

Applicant's arguments, see Remarks, filed 4/12/2007, with respect to claims 1 - 32 have been fully considered and are persuasive. The rejection of claims 1 - 32 has been withdrawn.

Applicant's arguments with respect to claims 33 - 47 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 33 - 47 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Consider **claim 33**, it is unclear on lines 15 - 17, where the limitations disclosed state, "handing the wireless device from the second extravehicular wireless network to the intra-vehicular wireless network", i.e., handoff or handover has taken place, but it is unclear according to the following limitation "the parallel communication pathways" that

Art Unit: 2618

whether the pathways are established during and/or remain established after the handoff. Even in light of the applicant's specifications, it is unclear. The specification discloses in [0009] that parallel communication is established and handoff criteria govern seamlessly switching communications between WLANs in order to avoid any lost or dropped communication. It is only disclosed that the communication "switches", while in parallel communication, from one WLAN to another WLAN, but not necessarily communication is dropped or sustained after handoff. Further references to the parallel pathways and handoff do not clarify the claimed limitation. Appropriate corrections are required.

Allowable Subject Matter

Claims 1 - 32 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: Consider independent claims independent claims 1 and 18, none of the cited prior arts disclose either alone or in combination the claimed limitations of a second extravehicular wireless network and a mobile network relay device comprising a vehicular mountable relay controlling and servicing the wireless device handoff between the second extravehicular wireless network and the first extravehicular wireless network.

Claims 33 - 47 might be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 2618

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
